👤 ABOUT ME

I am a dedicated and passionate Mathematics teacher with a B.Sc. in Mathematics and a B.Ed. degree, committed to simplifying complex concepts for students. With a strong academic foundation and innovative teaching methods, including AI-driven tools and interactive techniques, I aim to foster an engaging learning environment. Currently preparing for the RPSC 2nd Grade Teacher exam, I am driven to inspire students and contribute meaningfully to the education sector.

💼 WORK EXPERIENCE

- **2024**
    - Mathematics Teacher Intern - Senior Level
    - Gov. Sen. Sec. School, Dhadheru
    - 3+ Month

- **2023**
    - Science Teacher Intern - Senior Level
    - Gov. Sen. Sec. School, Dhadheru
    - 1+ Month

🏛 SKILLS

- **Teaching : Mathematics**
    - Lesson Planning
    - Classroom Management
    - Student Assessment
    - Different teaching methods

- **Computer Skills : Advanced level**
    - Word
    - PowerPoint
    - Excel (Expert)
    - Photoshop

- **Web Development**

- **AI Prompt Engineering**

🤖 BRINGING TECH INTO TEACHING

I use my computer and web development skills to make learning smarter and more connected. I build **school websites** where parents can easily check their child's marks, progress, and important updates such as notices or events. This helps teachers, students, and parents stay connected and well-informed. My aim is to make education more engaging and efficient using simple, useful technology

π Mathematics Teaching Style

I build strong basics by linking maths to real-life examples. Using interactive tools and step-by-step problem-solving, I make learning fun. I don't focus on memorizing formulas—I show students the "how" and "why" behind them. This helps them think deeply, sharpen their logic, and create a lasting foundation beyond exams.
